

CREATING SUSTAINABLE HIGHLIGHTS

With the edding 24 EcoLine we have created something which is particularly important to us – a truly sustainable highlighter. The cap and barrel are made from at least 90% renewable resources, and the mouthpiece and filter fibres are made from at least 97% recycled materials.

The edding 24 EcoLine is the first highlighter to be presented the “Blue Angel” eco-label, Germany’s most important eco award. This seal is only given to manufacturers who comply with strict resource, environmental and health protection criteria.

HIGHLIGHTER
e-24 ECOLINE

Dear Trading Partner,

This year we celebrated our 60-year anniversary. For us, this is primarily a reason to say “thank you”. Without the close partnership that connects you to us as our trading partner, we would not be currently looking back on six successful decades. You are the link to the users of our products and we rely on your expertise with regard to advice and customer service. The fact that you have trusted us and our products for such a long time is not something that we take for granted, but instead is a great incentive for us to continue being a good partner to you in the future.

That's why we have once again had so much going on: we have invested in digital technologies, developed new products in line with the latest trends and have won numerous awards.

At the end of 2018, we were awarded the title of Germany's most innovative medium-sized company by business magazine Wirtschaftswoche. One aspect that was highlighted in particular by the jury was our corporate boldness, the continual development of the brand and the development of new products and product categories as well as the expansion of existing ranges. As part of the process of digitalisation, we discovered ways of transferring our strengths from the marker business to other industries and applications, and we developed our own digital technologies such as the edding code, which involves using conductive ink to print a digital marking on packaging or labels that can be read out using a smart phone.

2018 was also a very successful year for our EcoLine: the edding 24 Ecoline highlighter received the Blue Angel award, which was the first time a marker has ever received the renowned environmental label. We are delighted about the high-ranking award, and hope to make a contribution to the conservation of resources with this product. The Blue Angel award has been setting demanding environmental criteria for products and services regardless of economical interests for 40 years now. It is considered one of the most trustworthy labels for consumers.

In 2019, we opened up the power of pastel. Soft pastel colours have not only taken over the fashion and interior design industries, but are also omnipresent in the creative sector. The edding 1200 fibrepen first conquered the market 50 years ago, and is now a classic for drawing and writing. To celebrate its anniversary, we have added six trendy new pastel shades to the colour range. The gloss paint markers in new pastel colours allow for almost limitless creativity. You can bring your creative ideas to life in soft pastel shades on almost any surface, including metal, glass and plastic. The range of gloss paint markers is completed by the exciting new blister packs and sets. The edding 7 mini-highlighters will add variety and fun to any pencil case, with five new pastel shades making them fully on trend.

We will also continue to do all we can to ensure everything runs smoothly, from product development to marketing and online activities right through to supplier support. This will ultimately help to achieve the desired high level of success for both our partners and for us. We look forward to a successful future and to working with you to continue the edding success story.

Kind regards,

Per Ledermann

Inspirational ideas for all presentations

Presentations using markers on flipcharts, white and glass boards have continued to grow in popularity over the past years. And that in the age of digitalisation! Why? Because we are able to understand and process images far quicker than text alone. With the presentation pros from edding, you can offer your customers innovative solutions to make their day-to-day work more creative and allow them to inspire others with their ideas.

A quick glance, product found, sale made

In addition to a POS shop in the form of a wall placement and for the aisle area, we also support you and your sales with a permanent shelf solution. The carefully considered structure makes it possible: your customers find what they're looking for quickly and with focus. They receive all the necessary information systematically, leading to quicker purchase decisions and additional purchases.

edding POS shelf solution

The new POS shelf solution can be flexibly adapted to the available space and to almost every trade shelf solution. The powerful lighting also makes the displays more eye-catching, and boosts the image and shopping experience.

Easy to install on almost any trade shelving and can be flexibly expanded as required

Systematic product information to back up and accelerate purchase decisions

Lit shelving for optimal attention

Environmentally-friendly LEDs help to save electricity

Stimulating application examples promote extra sales

edding code – the invisible QR code

Intelligent, versatile and entertaining: the edding code turns ordinary paper and conventional packaging material into modern means of communication. Thanks to its innovative features, this unique next-generation labelling solution supports you in a wide range of tasks – from checking documents to interacting with your customers.

Open the app or website on your phone's browser.

Place the product on the smartphone screen.

Swipe up to activate eID tag.

Remove the product and the information will be displayed directly on your smartphone.

edding code is the next-generation eID solution

With edding code, we are combining the inventiveness of Prismade Labs, a German start-up, with edding's unparalleled ink expertise. The result is a smart, ultra simple eID tag that can be embedded into everyday products. Design your own edding Code to interact with smartphone screens, creating a unique customer experience and enhanced brand engagement in the product marketing or document verification industries.

Gloss paint markers

Glossy appearance on all especially smooth materials guaranteed. The low-odour, waterproof gloss paint markers provide a brilliant, glossy finish and are ideally suited for labelling, marking and decorating – even on dark and transparent materials. Quick-drying and weather-resistant, these markers are also impressively lightfast and smudge-proof.

Before use, shake the gloss paint marker, remove the cap and carefully pump up and down until the ink fills the nib.

edding 750 gloss paint marker

Gloss paint marker for highly opaque, permanent and smudge-proof writing and decorating on smooth and even dark and transparent materials, e.g. glass, metal, plastic and coated paper. The round nib has a stroke width of 2-4 mm. The paint-like pigment ink is quick-drying, weatherproof, extremely lightfast and wear-resistant. Available in 14 different colours. Spare nibs are available. Low-odour ink with no added toluene/xylene. High-quality aluminium barrel.

Permanent opaque ink adheres on materials where everything else smudges. Wide range of brilliant high-gloss colours, especially shimmery for metallic colours. Valve-system allows even inkflow for great coverage. Foil seal ensures the product is unused when purchased. Easy and clean to use for uncomplicated, spontaneous creativity. Long-lasting indoors and outdoors. High-quality brand product.

edding 753 gloss paint marker calligraphy

Gloss paint marker for highly opaque, permanent and smudge-proof writing and decorating on smooth and even dark and transparent materials, e.g. glass, metal, plastic and coated paper. The calligraphy nib has a stroke width of 1-2.5 mm. The paint-like pigment ink is quick-drying, weatherproof, extremely lightfast and wear-resistant. Available in the colours black, white, gold, silver and copper. Low-odour ink with no added toluene/xylene. High-quality aluminium barrel.

Permanent opaque ink adheres on materials where everything else smudges. Special nib for fine to broad strokes and calligraphic writing and lettering. Brilliant high-gloss shimmery metallic colours. Valve-system allows even inkflow for great coverage and opacity. Foil seal ensures the product is unused when purchased. Easy and clean to use for uncomplicated, spontaneous creativity. Long-lasting indoors and outdoors. High-quality brand product.

Paint markers

Perfect for highly opaque marking and permanent labelling. These paint markers have excellent adhesive properties, and thanks to their waterproof, quick-drying ink are extremely wear-resistant on smooth, dark and transparent materials. edding 750, 751 and 780 paint markers are heat-resistant up to 400 °C. Colours 005–010, 049 and 054 remain visible at up to 1000 °C. No added toluene/xylene.

Before use, shake the paint marker, remove the cap and carefully pump up and down until the ink fills the nib.

edding 750 paint marker

Paint marker for highly opaque and permanent labelling even on dark and transparent materials, e.g. metal, glass and plastic. The round nib has a stroke width of 2-4 mm. The paint-like ink is quick-drying, weatherproof, extremely lightfast and wear-resistant. All colours are heat-resistant up to 400 °C. The colours yellow, orange, brown, violet, pink, light blue, white and silver remain visible at up to 1000 °C. The colour white is recommended by Lufthansa Technik. Available in 14 different colours. The colours brown, violet, pink, light blue and copper are available in a different design with the same ink quality (see edding 750 gloss paint marker). Spare nibs are available. Low-odour ink with no added toluene/xylene. High-quality aluminium barrel.

Highly opaque marking results on dark and smooth surfaces with a solvent- and heat-resistant ink. Long-lasting indoors and outdoors. Exceptional ink for heat-resistant marks up to 400 °C and some colours are still visible up to 1000 °C. Visible marking even in compromised lighting conditions. Foil seal ensures the product is unused when purchased. Intensive colours. Broad colour assortment. High-quality brand product.

edding retract 11 permanent marker

Permanent marker with push-button mechanism for one-handed operations - for marking and labelling almost all materials, e.g. paper, cardboard, metal, glass, plastic and wood. The round nib has a stroke width of 1.5-3 mm. The permanent marker does not have a cap; the nib is extended or retracted by simply pressing on the push-button. The seal system prevents the marker from drying out when the nib is extended. Waterproof and wear-resistant on almost all surfaces. Available in the colours black, red, blue and green. The product is refillable. Low-odour ink with no added toluene/xylene.

Pushbutton-mechanism enables one-handed use for quick, convenient and long lasting marking. Ready to use. Practical clip prevents rolling away and can be secured on clothes and objects. Push-button mechanism - no cap to lose. No stains on clothes or hands. High-quality brand product.

Flipchart markers

For the perfect presentation. Flipchart markers have been specially designed for writing and marking on flipchart paper, presentation paper and cards. The ink is available in a wide range of brilliant colours and will not bleed through to the next sheet of paper. The “no-cap” technology also means that the markers do not dry out – even if the caps are left off for a few weeks at a time.

Almost all models are refillable and protect the environment thanks to being reusable.

edding 31 EcoLine flipchart marker

Flipchart marker specially designed for writing and marking on flipchart paper, presentation paper / cards and other paper sheets. At least 90% of the total plastic used in the marker is made from recycled material (83% post-consumer). The round nib has a stroke width of 1.5-3 mm. The ink has a neutral smell, does not bleed through onto the next page and is available in a range of brilliant colours. Thanks to the "cap-off" technology, the cap can be left off for several weeks, without the product drying out (test climate according to ISO 554). Available in the colours black, red, blue and green. The product is refillable. Spare nibs are available.

Eco-friendly with at least 90% of the total plastic used made from recycled material (83% post-consumer). Easy identifiable eco-friendly product design. Cap can be stored on the end of the barrel to prevent risk of losing it. Practical clip prevents rolling away and can be secured on clothes and objects. High-quality brand product. Made in Germany.

Glassboard markers

For comprehensive note-taking and flexible corrections. The glassboard markers enable brilliant and opaque writing and marking on Glass panels and on most other common glass materials. The ink can be easily erased from glass panels when dry.

Before use, shake the glassboard marker, remove the cap and carefully pump up and down until the ink fills the nib.

Chalk markers

Creativity with chalk. Whether creating an opaque design, label or decoration, the chalk markers add striking accents to non-porous materials in a wide range of different colours. Also available in bright neon colours. Another benefit: the water-based liquid chalk can easily be erased using a damp cloth.

Before use, shake the chalk marker, remove the cap and carefully pump up and down until the ink fills the nib.

edding 4095 chalk marker	071

Overview of application areas

Glass

Dark
chalk boards

edding 725 neon board marker

Neon board marker for non-permanent labelling and marking on darker coloured boards and glass. The writing is dry-wipeable from virtually all non-porous surfaces. The chisel nib has a stroke width of 2-5 mm. The board marker ink is lightfast and quick-drying. Available in the colours white, neon blue, neon green, neon yellow and neon pink. With no added butyl acetate.

Non-permanent neon colours. Dry wipeable and therefore easy to correct or remove. Easy handling - Contrary to standard chalk, your hands will not get dirty. Produces a more professional and elegant script or drawing better than any chalk. Fluorescent colours become visible under UV light. Cap can be stored on the end of the barrel to prevent risk of losing it. Foil seal ensures the product is unused when purchased. High-quality brand product. Made in Germany.

Whiteboard markers

Always at your service. Thanks to the “no-cap” technology, the whiteboard marker’s cap can be left off without drying out, even for a few days at a time. And of course they are perfect for writing and marking on whiteboards. They are also lightfast and quick-drying, with no added butyl acetate. Whiteboard markers are dry-wipeable from virtually all non-porous materials such as enamel, glass and melamine. The range is supplemented by the useful accessory products, which are available individually or in a practical complete set.

Almost all models are refillable and protect the environment thanks to being reusable.

Area of application

Whiteboards

* At least 90% of the total plastic used in the marker is made from recycled material (83% post-consumer)

edding retract 12 whiteboard marker

Whiteboard marker with push-button mechanism for one-handed operations - for writing and marking on whiteboards and also suitable for flipcharts. The writing is dry-wipeable from virtually all non-porous surfaces such as enamel and melamine. The round nib has a stroke width of 1.5-3 mm. The retractable seal system prevents the marker from drying out. The whiteboard marker ink is lightfast and quick-drying. Available in the colours black, red, blue and green. The product is refillable. With no added butyl acetate.

Pushbutton-mechanism enables one-handed use, easily residue-free dry wipeable from whiteboards. Ready to use. No cap to lose - capless thanks to pushbutton mechanism. Practical clip prevents rolling away and can be secured on clothes and objects. High-quality brand product.

1.5-3 mm

Gel rollers

The special gel ink makes it possible. Gel rollers allow for extremely precise, soft and fluid writing on paper and cardboard. With their non-slip rubber grip zone, they are secure and comfortable to hold. Available in a wide range of attractive colours, including pastel and metallic colours. The metallic colours create fantastic effects thanks to their high coverage on dark paper and cardboard. The metal-framed nibs are highly durable and robust.

edding 950 industry painter

Industry paste marker for highly permanent marking on rusty or rough surfaces, e.g. metal, stone and wood. The colour paste has a stroke width of up to 10 mm. Paste markers with twist-out wax-like nib. The highly opaque and highly permanent colour paste is waterproof, smudge-proof and extremely lightfast. Can even be used for writing on clean surfaces under water. Available in the colours black, red, blue, yellow and white.

Highly permanent paste for particularly difficult surfaces and even possible to use underwater. Coloured paste with flexible stroke width - up to a maximum of 10 mm. Long-lasting indoors and outdoors. Exceptional ink for heat-resistant marks up to 300 °C. Visible marking even in compromised lighting conditions. Ready to use. Intensive colours. High-quality brand product.

edding 8180 label removal marker

Label removal marker for precise and simple removal of most paper labels and adhesive residue, e.g. on badges on windcreens, labels on the soles of shoes, glass and porcelain etc.. The marker features a chisel nib with a stroke width of 4 mm. The gentle oil is colourless, low-odour and contains natural ingredients. The label removal marker can also be used on vertical surfaces, no dripping.

Special solution for very convenient and precise removal of paper labels and adhesive residues. Quick and simple application. Controlled application thanks to the marker format - more economical than sprays (no spray mist). Economical solution: Contains ingredients from renewable raw materials. No cleaning afterwards: Leaves no oily residues on cleaned surfaces. Very robust polyester nib can be used as tool to scrape adhesive residues. High-quality brand product. Made in Germany.

edding 8901 furniture repair wax kit

Furniture repair wax kit for filling and repairing cracks and holes on furniture or other wooden surfaces - vertical or horizontal. By mixing the various wax shades, the grain can be perfectly imitated. The soft repair waxes consist of a mix of mineral waxes and are coloured with earth and oxy colours. Available in 10 different packs of 3 colours with plastic spatula.

Special solution for quick repair of damages on furniture surfaces. Precise and clean application. Kit contains 3 mixable colour shades to replicate the wood grain effect, available in many colour combinations. High-quality brand product. Made in Germany.

edding 1200 metallic colour pen

Fibre pen for writing and decorating, drawings and layouts in attractive metallic colours on light-coloured and even dark-coloured paper. The round nib has a stroke width of 1-3 mm. The water-based ink in the filter system is extremely lightfast. Available in the colours gold, silver, red metallic, blue metallic, green metallic and violet metallic.

The ink in brilliant metallic colours ensures opaque results even on dark paper. Cap can be stored on the end of the barrel to prevent risk of losing it. Easy and clean to use for uncomplicated, spontaneous creativity. High-quality brand product. Made in Germany.

edding 1340 brush pen

Fibre pen for lettering and colouring, drawing, and creating layouts on light-coloured paper. The brush nib has a variable stroke width. The water-based ink is water-soluble until dry and does not bleed through paper. Available in 20 different colours.

The soft and flexible brush nib and the possibility of mixing colours ensures great effects. Wide range of intense and delicate colours. The e-55, e-1200, e-1300 and e-1340 colours are perfectly coordinated and complement one another, making them particularly easy to combine. Cap can be stored on the end of the barrel to prevent risk of losing it. Easy and clean to use for uncomplicated, spontaneous creativity. High-quality brand product. Made in Germany.

edding 1500 pastel pen

Fibre pen for writing and drawing in semi-transparent white - on dark and light coloured paper, also creates pastel shades in combination with edding fibre pens, e.g. e-1340, e-1300 and e-1200. The round nib has a stroke width of 1-3 mm. Pigmented water-based ink. Available in semi-transparent white.

2x colouring fun: shades of white and pastel colours. White: use once for semi-transparent white, use repeatedly for lighter, more opaque highlights. Pastel colours: creates pastel shades in combination with edding fibre pens e.g. e-1340 brush pen, e-1300 colour pen, e-1200 colour pen. Seals non-lighfast, water-based ink from fibre pens and protects artworks from fading when applied on top of fibre pen ink. Easy and clean to use for uncomplicated, spontaneous creativity. High-quality brand product. Made in Germany.

edding 13 FUNTASTICS MAGIC FUN fibre pen for children

Children's fibre pen for magical drawing fun on light-coloured paper and card. The round nib has a stroke width of 3 mm. The water-based ink is quick-drying and has a neutral smell. Complies with the CE mark for child-friendly toys. Available in the colours black, red, blue, yellow, brown, violet, light green and white.

Magic pens which change colours: 14 intense colours from 7 pens. Pressure-resistant round nib. Various colour effects can be created by going over the ink with the white magic marker; the cap shows the colour that will appear. The non-slip grip zone ensures comfort and particularly smooth colouring, offering children aged 3 and upwards good support. Ergonomic design specially designed for children's hands and created with pedagogues. High-quality brand product. Made in Germany.

Textile markers/pens

For T-shirts, jerseys and more. These textile markers and pens allow you to create colourful designs on most untreated soft textiles such as cotton, silk, linen, etc. After fixing with an iron (no steam), the many available colours will remain wash-resistant up to 60°C (on the majority of materials). The water-based ink is quick-drying and stands out thanks to its impressive lightfast properties.

edding 4600 textile pen

Textile pen for wash-resistant decorating and drawing on most light colour textiles like cotton, silk and linen. The round nib has a stroke width of 1 mm. The water-based pigment ink has a neutral smell, is quick-drying and extremely lightfast. After fixing the colours by ironing the fabric (without steam), the textiles can be washed at up to 60 °C. Available in 20 different colours.

Wide range of brilliant colours for long-lasting wash-resistant results on fabric. Robust bullet nib. Cap can be stored on the end of the barrel to prevent risk of losing it. Easy and clean to use for uncomplicated, spontaneous creativity. High-quality brand product. Made in Germany.

Overview of application areas

* Detailed information in individual product sections

edding 5200 permanent spray premium acrylic paint

Premium acrylic paint for quick and easy refurbishing, restoring and beautifying almost all materials. The standard sprayhead has a spray width of ca. 5-6 cm; interchangeable sprayheads available in spray widths fine (ca. 1 cm), medium (ca. 4-5 cm), wide (ca. 8-10 cm) and variable (ca. 13-14 cm). The acrylic pigment paint provides high coverage, is extremely quick-drying, weatherproof and extremely lightfast. Available in 27 silk-matt and 3 glossy colours. Interchangeable sprayheads available. 100% free of health-harming heavy metals.

High-quality formula: covers immediately, extremely quick-drying, long-lasting indoors and outdoors. Wide range of standard and trend colours in an especially intense and uniform colour finish. For almost all surfaces (for best results on absorbent surfaces, coatable plastic components or polystyrene, use only with edding Universal, Plastic or Polystyrene Primers). Easy to apply. When completely dry it is scratch, knock and impact resistant, light-fast and non-yellowing. Less spray mist due to well-balanced pressure system. Novel valve technology allows usage of interchangeable sprayheads for different spray widths and makes it unnecessary to empty the can upside-down. High coverage - 200 ml is sufficient for ca. 0.7-1 m². Handy 200 ml spray can. High-quality brand product. Made in Germany.

edding 5200 permanent spray universal primer

Primer for preparing almost all materials, e.g. wood, metal, glass, ceramics, paper and card to be coated with acrylic, synthetic resin or nitrocellulose paints. The standard sprayhead has a spray width of ca. 5-6 cm; interchangeable sprayheads available in spray widths fine (ca. 1 cm), medium (ca. 4-5 cm), wide (ca. 8-10 cm) and variable (ca. 13-14 cm). The primer provides high-coverage and is quick-drying. The primer has a light grey colour. Interchangeable sprayheads available. 100% free of health-harming heavy metals.

Maximises adhesion and gives the base material a smooth, even coat. Dry for reworking after approx. 2 - 4 hours. Easy to apply. Guarantees economical use of the top coat. Less spray mist due to well-balanced pressure system. Novel valve technology allows usage of interchangeable sprayheads for different spray widths and makes it unnecessary to empty the can upside-down. Handy 200 ml spray can. High-quality brand product. Made in Germany.

Product	Description / Delivery Unit	Dimensions	Code	Order no.
	996 grey Content: 200 ml 1 piece	53 x 53 x 183	 4 004764 971404	4-SC5200996

edding 5200 permanent spray polystyrene primer

Primer for preparing polystyrene objects to be coated with solvent-based paint. The standard sprayhead has a spray width of ca. 5-6 cm; interchangeable sprayheads available in spray widths fine (ca. 1 cm), medium (ca. 4-5 cm), wide (ca. 8-10 cm) and variable (ca. 13-14 cm). The primer provides high-coverage and is quick-drying. The primer has a light brown colour. Interchangeable sprayheads available. 100% free of health-harming heavy metals.

Prepares polystyrene for solvent based paint. Dry to recoat after approx. 3 hours. Easy to apply. Less spray mist due to well-balanced pressure system. Novel valve technology allows usage of interchangeable sprayheads for different spray widths and makes it unnecessary to empty the can upside-down. Handy 200 ml spray can. High-quality brand product. Made in Germany.

Product	Description / Delivery Unit	Dimensions	Code	Order no.
	997 vanilla Content: 200 ml 1 piece	53 x 53 x 183	 4 004764 971428	4-SC5200997

edding 5200 permanent spray plastic primer

Primer for preparing hard plastics to be coated with acrylic, synthetic resin or nitrocellulose paints. The standard sprayhead has a spray width of ca. 5-6 cm; interchangeable sprayheads available in spray widths fine (ca. 1 cm), medium (ca. 4-5 cm), wide (ca. 8-10 cm) and variable (ca. 13-14 cm). The primer provides high-coverage and is quick-drying. The primer is transparent. Interchangeable sprayheads available. 100% free of health-harming heavy metals.

Prepares coatable plastic for solvent based paint. Extremely quick-drying - can be re-coated after approx. 15 minutes. Easy to apply. Less spray mist due to well-balanced pressure system. Novel valve technology allows usage of interchangeable sprayheads for different spray widths and makes it unnecessary to empty the can upside-down. Handy 200 ml spray can. High-quality brand product. Made in Germany.

edding 5200 permanent spray clear lacquer

Clear lacquer for fixing and protecting almost all materials and giving the surface a silky matt or glossy finish. The standard sprayhead has a spray width of ca. 5-6 cm; interchangeable sprayheads available in spray widths fine (ca. 1 cm), medium (ca. 4-5 cm), wide (ca. 8-10 cm) and variable (ca. 13-14 cm). The lacquer provides high-coverage, is quick-drying and weatherproof. Available in silky matt or glossy finish; both colourless. Interchangeable sprayheads available. 100% free of health-harming heavy metals.

Protects and fixes indoor and outdoor. Provides ideal oxidation protection for metal. For almost all surfaces (for best results on absorbent surfaces, coatable plastic components or polystyrene, use only with edding Universal, Plastic or Polystyrene Primers). Easy to apply. When completely dry it is scratch, knock and impact resistant, light-fast and non-yellowing. Less spray mist due to well-balanced pressure system. Novel valve technology allows usage of interchangeable sprayheads for different spray widths and makes it unnecessary to empty the can upside-down. High coverage – 200 ml is sufficient for ca. 0,5-1 m². Handy 200 ml spray can. High-quality brand product. Made in Germany.
