

ACTIVATION WORLDS

In order to simplify the search for relevant promotional materials, we have arranged our products in Activation Worlds targeting areas for which our writing instruments are particularly suitable:

BE **ERGONOMIC**

Impress with ergonomic writing instruments:

Innovative ballpoint pens, rollerballs, gel pens and mechanical pencils. Under the heading STABILO EASYergonomics experts you will find all our special products for right and left-handers. STABILO is a pioneer in writing ergonomics and has been an expert for ergonomic writing instruments for 10 years. Together with the independent Schreibmotorik-Institut (www.schreibmotorik-institut.com) STABILO has been researching graphomotor skills since 2012. These products make the ideal advertising vehicle for a young target group and areas associated with ergonomics.

BE **NEON**

Promotional messages which are sure to attract attention:

Highlighters in radiant neon colors with additional space for individual decoration. As the inventor of the highlighter, NEON is, of course, very much our theme. NEON enjoys global popularity — in the worlds of fashion and lifestyle, as well as in music and sport. And, as the European number one highlighter brand, STABILO can't be beaten when it comes to luminosity. It's clear that NEON products are perfect for advertising — because they're guaranteed to grab the attention you wish for.

BE **DIFFERENT**

Uniqueness for various purposes:

Ballpoint pens, fineliners, overhead markers and mechanical pencils in all kinds of combinations. Because our products are so versatile, almost nothing is impossible. We produce everything the advertising heart desires — colors, shapes, materials, packaging and finishes. The STABILO classics are always well received when it comes to advertising. STABILO is simply different and as individual as each advertising customer.

BE **GREEN**

Sustainable products for the environmentally-conscious communication of promotional messages:

The STABILO GREEN range with environmentally-friendly writing instruments made from FSC wood, bioplastics or with a high proportion of recycled materials and Cradle to Cradle certification. STABILO has long been involved in the area of sustainability, and continually launches new, environmentally-friendly products onto the market. Those who wish to convey green messages to their target group are certain to find the right product from STABILO.

BE **SMART**

Sophisticated advertising:

With their first-class mechanics and exquisite finishes, these intelligent products promise to be particularly successful. And smart: metal writing instruments with an engraved personal name are sure to impress the recipient and are particularly durable.
